Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Art Unit 1713

1. Claims 11-22, 28-37 and 39 are rejected under 35 U.S.C. § 112, second paragraph as indefinite. Claims are rejected for reasons presented in the previous Office action. During an interview with applicants' representatives, an agreement was made that applicants would clarify the claims to stipulate that Q represents a polymer or block polymer and q represents the number of different monomer units in Q. Furthermore, the identification of R as a polymer when Q was not a block copolymer in itself was also supposed to be incorporated into the claims. This would then clarify the claims as being drawn to block polymers. The Examiner does not see how the identification of Q as currently presented clearly represents a polymer, but rather it is drawn as a repeat unit which can be a homopolymer and is not specified as potentially being a block copolymer. Furthermore there is no stipulation that there be repeating units. Some lower case integer should be identified to stipulate what kind of polymers are being claimed. q has also not been identified as representative of the number of different kinds of monomers present in Q. The claims, therefore, continue to be indefinite insofar as they do not coincide with the intended disclosure as described by applicants and do not coincide with the preamble which requires block polymers.
